

Australian Childcare, Early Learning & OSHC Database

Thank you for purchasing the Australian Childcare, Early Learning & OSHC Data List from ChildcareList.com.au.

About this list

This data was originally obtained for one of our own projects after we found that existing commercially available childcare lists were incomplete, outdated or missing key information. We spent weeks sourcing, validating, cleansing and standardising the data to produce a high-quality source of information for Australia's early childhood education sector.

Rather than letting this work sit unused, we've made it available to others who need accurate childcare contact data.

What's included

Depending on the version purchased, the database may include information such as:

• Service Name • Provider Name • Email Address • Phone Number • Website • Physical Address • Suburb • State • Postcode • Additional data fields

Intended uses

This database may be suitable for:

• Business-to-business marketing • Market research • Sales prospecting • Industry analysis • Geographic analysis • CRM enrichment • Business development

It is your responsibility to ensure any use of this data complies with all applicable Australian laws and regulations, including the Spam Act 2003, Privacy Act 1988 and any other relevant legislation.

Data quality

Although considerable effort has been made to validate and cleanse the information, business information changes over time. No database can be guaranteed to remain completely accurate after publication.

Support

If you experience any issues with your purchase or believe there is a problem with the downloaded file, please contact us through ChildcareList.com.au.

Thank you for your purchase and support.
